DESSERT STUDIO

Assignment 2

Slot Machine

Version #1

Evan Pugh

June 7th 2013

Table of Contents

Slot Machine

I. **Version History**

v1

- window with slot machine background

- buttons added: bet 1, 10, 100, reset, quit, spin (no functionality)

- creation of external document

v2

- added quit button functionality

- methods created for button events (not completed)

- added background music (file doesn't play, but default sound does: can be heard on program start)

- minor changes to external documentation

II. **Game Overview**

Standard slot machine game. Currently less functional than a real one. Just as frustrating as a real one though.

III. **Game Play Mechanics**

IV. **Controls**

Mouse only. Click the buttons to control the game.

V.   Game World

VI.   Enemies

The slot machine odds!
